

REBECCA MARTINEZ

Goleta, CA | rebecca_martinez@ucsb.edu | martinez.rl@hotmail.com

OBJECTIVE

Environmental Studies senior at UC Santa Barbara seeking a position supporting research, education, or program operations in a science-focused setting. Brings experience in field research and data analysis, a strong background in mentorship and operations, and a dependable, collaborative approach.

EDUCATION

University of California, Santa Barbara — Santa Barbara, CA

B.S. in Environmental Studies, Concentration in Terrestrial Ecosystems

December 2026

Allan Hancock College — Santa Maria, CA

A.S. in Biology, with honors | May 2024

A.A. in Biology, with honors | December 2023

A.A. in Mathematics and Science, with high honors | May 2021

EXPERIENCE

Undergraduate Researcher

SWAMP Lab, UC Santa Barbara — Santa Barbara, CA

January 2025–Present

- Conducted an independent research project examining rock-derived nitrogen in semi-arid soils with and without mammalian bioturbation.
- Collected and prepared soil and rock samples, maintained project records, and analyzed data using R/RStudio.
- Presented findings at the American Geophysical Union Annual Meeting and prepared project materials for future students to continue the research.

Student Assistant

UCSB Office of Education Partnerships — Santa Barbara, CA

September 2024–June 2026

- Revised program protocols, organized equipment and inventory, tutored students, and assisted with events and fieldwork.
- Responded to shifting priorities so students and staff received assistance where it was most needed.
- Contributed to smooth daily operations and consistent delivery of educational programs.

Discussion Leader

UCSB–Smithsonian iERES! Program — Santa Barbara, CA

June 2025–September 2025

- Led R/RStudio discussions and guided students through field data collection, assignments, and research projects during a six-week data science course.

- Reinforced course instruction by connecting field methods with data analysis and visualization.
- Prepared students to analyze data, create visualizations, and communicate research findings.

Data Science Intern

Smithsonian Data Science Lab — Remote

June 2024–September 2024

- Taught R/RStudio, developed instructional resources, and guided undergraduate students through data analysis assignments and projects.
- Made data science methods more approachable by connecting instruction to student research questions and real datasets.
- Prepared students to use R/RStudio to analyze data, create visualizations, and complete research projects.

Lead Tutor and Peer Tutor

Allan Hancock College — Santa Maria, CA

August 2019–May 2024

- Tutored STEM subjects, trained new tutors, facilitated workshops, and assisted with daily tutoring-center operations.
- Balanced individualized instruction with consistent tutoring practices to meet diverse learning needs across the program.
- Strengthened students' understanding of course material and contributed to reliable, accessible tutoring services.

Slot Attendant / Floor Operations Supervisor / Security Officer

Chumash Casino Resort — Santa Ynez, CA

June 2006–May 2025

- Resolved guest and equipment issues, supervised daily floor operations, coordinated staffing, and responded to safety concerns.
- Balanced customer service, workforce coordination, and regulatory responsibilities in a fast-paced, high-volume environment.
- Contributed to efficient daily operations and a safe, positive experience for guests and employees.

SKILLS

- R/RStudio data analysis and visualization
- ArcGIS Pro
- Field data collection and sample preparation
- Research documentation and recordkeeping
- Microsoft Office and Google Workspace
- Program support and inventory organization
- STEM tutoring and mentoring
- Customer service and staff supervision
